# PS700

**The PS700 is the ultimate machine for the large volume processing of one-piece mailers. Using leading pressure seal technology the PS700 couldn't be easier to use... print your documents on pressure seal paper, insert them into the PS700 and switch on. Moments later your documents are folded and sealed ready for posting.**

Incorporating a Deep Pile Feeder and Vertical Stacker, the PS700 offers great value for money with the capacity to process up to 30,000 forms per hour. Whether you're processing payslips, pension forms, direct mail, remittance advice slips or any other confidential form or mailing document, you will save time, money and resources.

At the same time, in addition to being tamper proof, this single piece mailer will save you the costs of the envelopes and form insertions.

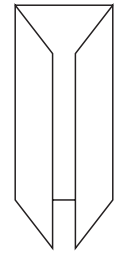

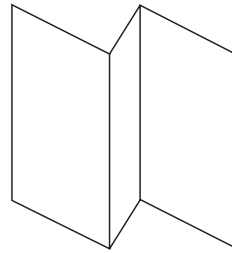

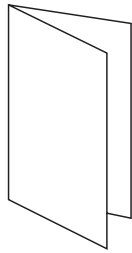

Designed for the high production environment, the PS700 will work with your existing impact or laser printer. It's also extremely easy to use. With the pressure seal process there is no liquid glue, water or heat, therefore eliminating the risk of mess or burns.

Paper flow is electronically monitored and the system will automatically shut down in the event of an interruption; you can immediately begin operations without disrupting document sequence or count. In addition, an out feed counter is a standard feature to allow easy calculation of processed documents.

A full technical specification appears overleaf but, of course, the best way to appreciate how the PS700 will work for your business is to see it in action. Call us for a demonstration – we're sure you'll be impressed with what you see.

**C-fold**

## Technical Specification

<b>Processing speed</b>	Up to 30,000 forms per hour (A4 Z-Fold)
<b>Feeder Capacity</b>	4000 sheet capacity top feed
<b>Form size</b>	L 203mm (8") to 610mm (24") W 300mm (11.8") maximum
<b>Fold configurations</b>	V, C and Z
<b>Paper weights</b>	80gsm to 120gsm
<b>Sealer</b>	Integral 4 roller
<b>Colour</b>	Light grey
<b>Size</b>	H 1250mm x L 2820mm x W 650mm
<b>Weight</b>	250kg
<b>Power</b>	230V 50/60Hz $\pm$ 10%
<b>Warranty</b>	Refer to local distributor

## Options & Accessories

- ◆ Conveyor Stacker
- ◆ Electronic Fold Plates
- ◆ Barcode Reader
